

OUR PARISH – OUR PLAN – OUR FUTURE

COMMUNITY FACILITIES

ENSURING THAT THE VILLAGE BENEFITS FROM SUFFICIENT FACILITIES AND SERVICES

POLICY BNP9

Next Generation Broadband

All new residential, commercial and community buildings within the Neighbourhood Plan area should be served by a superfast broadband (fibre-optic) connection to premises unless it can be demonstrated, through consultation with Next Generation Access (NGA) Network providers, that this would not be either possible, practical or economically viable.

Where this is the case, sufficient and suitable ducting should be provided within the site and to the property to facilitate installation at a future date.

NON-POLICY ACTION (REF: NPA6)

Village Hall: Continued Provision of Village Services

The Parish Council will continue to promote the use of the village hall and will work with and support the Village Hall Committee in taking steps to improve the facility where appropriate. The Parish Council will also support existing community groups and clubs together with encouragement for residents to use local services such as the mobile library and weekly post office visits.

Where possible additional sources of funding retained by the Parish Council through the Community Infrastructure Levy (CIL) will be spent on improvements that benefit the community.
