For those not online: The Church of England has launched a free dial-in worship service to bring hymns and prayer to people's homes while churches are closed because of the coronavirus pandemic. Daily Hope offers music, prayers and reflections as well as full worship services from the Church of England at the end of a telephone line. The national free phone line is available 24 hours a day on 0800 804 8044. Maybe this is one to share with those you know who do not have access to the internet.
